Rebecca and John,

We would like to express our gratitude for the jobs that were well done by your company. First of all, you moved my personal home belongings and it was a text book experience. This was the first time that I had ever paid a professional company to move me, usually I used a bunch of friends, several pick up trucks and one rented truck. It would always be an all day adventure full of chaos and head aches. After using your company, I will never go back to a self move again!!!! It was so simple. You made it very easy. The guys that came to move me where very professional. I could not believe how hard and how fast they worked. It was actually a pleasure.

Our second experience with Bargain Boxes went just as easy. This time you moved William's personal home as well as a home office. I was amazed again at how well the crew worked. There was no resting until the job was done. They even reassembled all of the beds and other furniture. Unbelievable. We loved the guys so much, we bought them a well deserved lunch.

The experience moving with Bargain Boxes is worth raving about. We have and will continue to recommend your company to all that we know. Running a company ourselves, we appreciate good service. Our experiences with Bargain Boxes proves that you are a business that is committed to customer service and the overall customer experience. Thank you Rebecca and John, we can't wait to move again!

Advocates forever,

Susie and William
