

Hi Rebecca: I just wanted to let you know how grateful I am for the great job your movers did for me and the work that you and John did to coordinate it. It was beyond my hopes and expectations, and made a tough experience so much easier. They are efficient, extremely hard working, and very personable young men. I was especially concerned with all the rules and delays of moving out of a high rise, but they sailed right through it and made it look so easy - obviously very experienced in these situations.

Of course things are still a long way from settled, but I am safely and happily settling in. I am sure that in making the move easier for me it also helped to make it easier on my much-loved cats too. I was really concerned about them but they are doing really well. At this stage of life moving is not something I would want to do again, but I would surely call you again if I did and would highly recommend you to others. In fact I have been telling everyone how great your service is.

Many thanks to you all!
Anah Neilson
